

2017 Call For Observations

Please submit observations of invasive or naturalizing populations of these species within the 4 County CWMA region. These species would benefit from additional geographic distribution data to better assess their risk to our region.

Within Oregon please contribute data to [iMapInvasives Oregon](http://imapinvasives.org) by contacting Lindsey Wise at imapinvasivesoregon@gmail.com and visiting <http://imapinvasives.org/orimi>. Within Washington State, please send reports to <http://eddmaps.org>. Both platforms accept individual observations and bulk uploads. iNaturalist.org and Oregon Invasive Species Hotline reports automatically get integrated into the iMapInvasives Oregon dataset. Please contribute data by December 1st, 2017. If you have questions about this request please contact Jeff Lesh at jlesh@conservationdistrict.org.

Target Species

- *Carex pendula* - drooping sedge
 - Carex pendula [Call for Observations](#) doc
 - <http://weedwise.conservationdistrict.org/cape45>
- *Chelidonium majus* - greater celandine
 - <http://www.invasiveplantatlas.org/subject.html?sub=11543>
- *Clinopodium vulgare* - wild basil
 - <http://www.invasiveplantatlas.org/subject.html?sub=54672>
- *Impatiens balfourii* - Balfour's balsalm
 - http://bomi.ou.edu/ben/408/impatiens_figures_408.pdf
- *Ventenata dubia* - ventenata grass
 - https://plants.usda.gov/plantguide/pdf/pg_vedu.pdf
 - <http://www.cabi.org/isc/datasheet/117772>
