

## 2018 Call For Observations

---

Please submit observations of invasive or naturalizing populations of these species within the 4 County CWMA region. These species would benefit from additional geographic distribution data to better document and assess their risk to our region.

Within Oregon please contribute data to [iMapInvasives Oregon](http://imapinvasives.org) by contacting Lindsey Wise at [imapinvasivesoregon@gmail.com](mailto:imapinvasivesoregon@gmail.com) and visiting <http://imapinvasives.org/orimi>. Within Washington State, please send reports to <http://eddmaps.org>. Both platforms accept individual observations and bulk uploads. iNaturalist.org and Oregon Invasive Species Hotline are great reporting methods as well. Reports to these sources automatically get integrated into the iMapInvasives Oregon dataset. Please contribute data by December 1<sup>st</sup>, 2018. If you have questions about this request please contact Jeff Lesh at [jlesh@conservationdistrict.org](mailto:jlesh@conservationdistrict.org).

## Target Species

---

- *Carex pendula* - drooping sedge
  - Carex pendula [Call for Observations](#) doc
  - <http://weedwise.conservationdistrict.org/cape45>
- *Chelidonium majus* - greater celandine
  - <http://www.invasiveplantatlas.org/subject.html?sub=11543>
- *Clinopodium vulgare* - wild basil
  - <http://www.invasiveplantatlas.org/subject.html?sub=54672>
- *Impatiens balfourii* - Balfour's balsalm
  - [http://bomi.ou.edu/ben/408/impatiens\\_figures\\_408.pdf](http://bomi.ou.edu/ben/408/impatiens_figures_408.pdf)
- *Cotoneaster franchetii* – orange cotoneaster
  - [https://www.fs.fed.us/pnw/pubs/pnw\\_gtr817.pdf](https://www.fs.fed.us/pnw/pubs/pnw_gtr817.pdf) (pages 24-25)
