11:00 Welcome, Approve Agenda

Mitch Bixby

What is the work plan for next year:

The plant list is wrapped up. Fact Sheets are wrapped. No new herbicide issues.

What does the technical committee want to accomplish in 2018.

In mapping & data: Standard vouchering protocol for the CWMA.

Tracking herbicide developments and communicating with the CWMA:

Manage the CWMA weed list:

Technical guidance for the CWMA/question response and research

Identification tips for all of our priority weeds, with possible links to id websites.

We want to avoid meetings for the sake of having meetings. But we would like to identify needs. Much of what we tackle can be addressed by email.

Technical support for Ed& Out.

The website isn't doing what we want. Mitch wants to see the website do what we want it to do.

Build a space for rural landowners: Urban landowners, and professionals:

The website is a priority;

The website will be added to the Education 7 Outreach committee meeting next week.

11:05 BMP Review

Michelle Delepine

- Tree of heaven
- Tansy ragwort
- Scotch broom
- Rush skeletonweed
- Reed canarygrass
- Puncturevine
- Knotweeds
- Ivy
- Indigobush
- Hawkweeds
- Garlic mustard
- False brome
- Canada thistle
- Blackberry

Look at the BMPs and Edit:

Reed Canarygrass

Michelle is concerned about the types of herbicide on the BMPs.

Elaine: Add under specific herbicide infojration. Warnings for specific herbicides?

Or checklist: Did you check to see if this is close to water?

In the interest of consistency: Leave them posted as 4-County documents, and review RCG, blackberry, and another by the end of the year.

Remove canarygrass:

RCG: Scotch broom: False brome

Blackberry, thistle, hogweed

Ivy, holly,

UCDAvis fact sheets are great.

11:25 Technical Committee Meeting Schedule, Goals and Objectives, and 2018 Annual Plan

Mitch Bixby

There is something in the works from ODA> When anyone hears of comment periods, send them to Sarah.
